

NATION WIDE MOVEMENT TO HUNT SLACKERS

Extensive Demands for Exemptions Causes National Security League to Act

EACH ABLE-BODIED MAN
MUST SHOULDER BURDEN

Appeal Sent Out to All Branches
of Organization in United States

PERCENTAGE ABOUT SAME
Washington, Aug. 3.—Early and scattering reports from local boards do not indicate in physical exemptions from army draft from the average of 25.77 established in 1916.

Results of the next step, the weeding out of men with dependent families are not clear. It may be that further supplemental rulings may be necessary. The question of marriage to avoid military duty has been passed upon by the board of directors to judge whether a registered man sought matrimony to avoid military service and must act accordingly.

New York, Aug. 3.—The National Security league announced today it had taken steps to promote the formation all over the country of "vigilance committees" to track down slackers under the draft law. The league has asked the heads of the principal defense societies and political organizations in this city to join in the formation of such a committee and has requested the chairman of each of its 280 branches throughout the country to take similar action.

"The conditions created by the extensive demand for exemption in the examinations under the draft law constitute a national menace," reads a letter to the chairman, "and require that patriotic and defense bodies undertake immediate steps to render futile the efforts of those who evade national service, and to such acts to remedy these conditions as will meet the approval of the federal authorities. This is a serious matter which requires determined action at once."

"We must impress upon the public that the slacker is not only a coward and a cheat and evading national service, but that he is imperiling national honor in a war for national existence and that he is endeavoring to impose upon the men numerically below him in the draft the duty which he should perform."

POSSES USED TO DRIVE SLACKERS

Oklahoma City, Okla., Aug. 3.—A band of 30 alleged draft resisters, who are believed to have shot Deputy Sheriff J. W. Cross near Wewoka yesterday, and last night to have fired dynamite a trestle reported to have established themselves in the brush south of Sasakwa to resist attack. Poses have started from Konowa, France and Ada.

FINAL COMPLETE TABULATION FOR NATIONAL ARMY

Few Minor Changes Made in List
As Finally Finished by Chas. Leismann

A final complete and official tabulation of county quotas upon which North Dakota counties will base their calls for the draft army was given out today by Charles Leismann of the adjutant general's force. The net quota as finally arrived at shows some slight changes from yesterday's report, the most notable being in LaMoure county, which is given 23 credits, while as yesterday it was reported to have none. Thirteen additional credits assigned to North Dakota by the war department are included in these net quotas, as are three credits from which the state benefits as a result of Rollette county's 83 credits having exceeded by that number its gross quota of 80.

The county quotas upon which the calls going forth today will be based by local extension boards are: Adams, 48; Barnes, 111; Benson, 107; Billings, 13; Bottineau, 162; Bowman, 44; Burke, 87; Burleigh, 89; Cass, 57; Cavalier, 122; Dickey, 80; Divide, 3; Dunn, 33; Eddy, 40; Emmets, 82; Foster, 25; Golden Valley, 10; Grand Forks, 216; Grant, 85; Griggs, 84; Hettinger, 35; Kidder, 60; LaMoure, 119; Logan, 19; McHenry, 156; McIntosh, 84; McKenzie, 144; McLean, 150; Mercer, 71; Morton, 154; Mountrail, 206; Nelson, 137; Oliver, 78; Pembina, 117; Ramsey, 20; Richland, 15; Rollette, none; Sargent, 119; Stark, 3; Sioux, 37; Slope, 80; Steele, 51; Stutsman, 162; Towner, 92; Traill, 81; Walsh, 127; Ward, 214; Wells, 66; Williams, 178.

The state's net quota of 5272, to which 2452 credits have been reduced North Dakota total, is to be drawn from 65,000 registrants, of whom 57,099 are citizens or declarants, 7205 are friendly aliens; 615 are alien enemies, and 88 are colored.

Suicide Is Traced to Draft Act

Woman Who Posed As Male
Physician for Years Feared
Exposure

VICTIM MARRIED BUT
"WIFE" GOT DIVORCE

Toledo, Aug. 3.—Authorities believe that the army draft examination just beginning here was the cause of the suicide of "Dr. Samuel Ackerman," whose body found yesterday was discovered by an undertaker to be that of a woman. Detectives investigating the conscription registration found that "Dr. Ackerman," 23, within the conscripted age, failed to register. Arrest and physical examination would have revealed the secret, maintained for many years. The body was found floating in the Maumee river yesterday. The authorities have ascertained that several years ago, posing as a man, Ackerman married. The wife soon obtained a divorce.

LANGER ADMITS GRAIN GRADING ACT IS FAULTY

Deputy Inspectors Must Be Paid
for Services, But Fee Section
Is Inoperative

INDEMNITY BOND FEATURE
HELD UNCONSTITUTIONAL

Attorney General Langer in reply to an inquiry from M. P. Johnson, president of the North Dakota Equity society and member of the state railway commission, admits that several features of the new grain grading act are unconstitutional. The attorney general's opinion in part reads:

Indemnity Bonds.
"Insofar as the act requires indemnity bonds from persons purchasing or receiving grain on consignment at central markets located without this state, I do not believe this provision can be enforced. And I question whether it is valid and can be enforced even as to such central markets within this state. It does not operate equally upon all purchasers of those receiving grain upon consignment throughout the state, but only upon those at a few points, and grants special privileges and immunities and also denies the equal protection of the law."

The Track Buyer.
He interprets the act as providing that any person, though not licensed, may buy any article that has been graded, weighed and inspected by a deputy inspector, and states that in his opinion the act permits the so-called track buyer to purchase grain that has been inspected.

Pay for Deputies.
In reply to Commissioner Johnson's question, "Is every licensed deputy inspector appointed under this act required to inspect, weigh and grade grain at his usual place of business, if the grain so inspected, weighed or graded is not to be purchased by the elevator company by which he is employed," the attorney general says: "Unless reasonable compensation is paid for such services, I do not believe such deputy inspectors employed by an elevator company can be required to inspect, weigh or grade grain not to be purchased or stored by the company by whom employed."

Filing of Fees.
In connection with the fixing of fees for weighing, grading and inspection service," writes Commissioner Johnson, "the commission of railroads are required to fix such fees at a sum which will make the grading and inspection department self-sustaining and in addition create a fund of 25 per cent of the total for the purpose of building storage warehouses within the state. Is this provision constitutional and should the commission, in your judgment, fix the fee with reference to such provision for the creation of a fund for the building of elevators?" In reply, Attorney General Langer says: "The act appears to be designed not only for the purpose of regulation, but also for revenue, and in my opinion the foregoing provision is unconstitutional and inoperative." A suit to test the constitutionality of the act as a whole now pending in supreme court.

BODY IS FOUND ON N. P. TRACKS

Jamestown, Aug. 2.—Mystery surrounds finding of body of a man along Northern Pacific tracks a mile east of city at an early hour this morning. It is believed man was stealing ride on No. 1 last night and was thrown from tracks, death probably being instantaneous. His head was badly mangled and left arm broken. Examination disclosed laundry mark NTW on shirt worn by victim. He is about 25 years of age and will be buried here.

NORTH DAKOTANS TO HELP BUILD U. S. CANTONMENTS

Major Sorenson and Captain
Stickley Detailed From
Quartermaster Corps

MAJOR HANLEY RESIGNS
BECAUSE WIFE IS SICK

Probable Mandan District Judge
Will Be Succeeded by Captain
Thomsen of Wahpeton

Two North Dakotans—Major Harold Sorenson of Fargo and Captain Warren A. Stickley of Bismarck—will have a hand in the building of two of the great cantonments which are to house divisions of Uncle Sam's national army while in training. These officers, members of the North Dakota quartermaster corps, received instructions yesterday to report for active duty immediately. Major Sorenson is to Augustus, Ga., and Captain Stickley to Anniston, Ala., to the quartermaster in charge of construction at the respective cantonments.

Old in Service.
Major Sorenson and Captain Stickley, who leave for the south this evening, are two of the oldest men in point of service in the North Dakota national guard. Both are veterans of the Philippine campaign, and Captain Stickley has been with the guard 30 years and Major Sorenson 21. Major Sorenson served as sergeant with Co. B during the war with Spain; was promoted to regimental commissary sergeant in 1905; to second lieutenant and battalion quartermaster in 1907; captain of Co. B, Fargo, 1910-1911, and in the border campaign of 1916 he was assistant to the division quartermaster, and on the 17 days' maneuvers from Llano Grande to Brownsville he was acting division quartermaster. He was commissioned major of the North Dakota quartermaster corps in May, 1917.

Captain W. A. Stickley served with the North Dakota troops in the Philippines and has been prominently connected with the service since 1888. He was with Co. A on the Mexican border, and his promotion to a captain in the quartermaster corps came with the reorganization in that department last spring.

Major Hanley Quits.
District Judge J. M. Hanley, who resigned command of the Third battalion while the First regiment was on the Mexican border, but who accepted a commission as major in the Second regiment of July, has again resigned from the service. In his letter of resignation he states that the illness of Mrs. Hanley and his business affairs would prevent his giving to the important military post assigned him the attention which it merits.

The majorship has been tendered to Capt. Manville H. Sprague of Grafton, commander of the supply company and ranking captain in the First regiment, but he has gratefully declined the honor. The commission now awaits the acceptance of Capt. Thomsen of Wahpeton, commander of Co. I, and next in order of rank.

May Mobilize Here.
Queries as to the location and condition of Fort Lincoln, and the possibility of two regiments of infantry being accommodated there, lead to the belief that the First and Second regiments of the North Dakota guard will yet be mobilized here, pending their transfer to concentration camp sites.

Governor Frazier has urged the advantages of Fort Lincoln repeatedly. Fort Lincoln is the only available post in North Dakota for the accommodation of large bodies of troops; it has been designated as the mobilization camp site for North Dakota, and the fort is favored by all regular army officers who are familiar with its advantages.

GERMANY HAD NOTICE TO SERVE HOURS BEFORE IT WAS GIVEN BELGRADE

Washington, D. C., Aug. 3.—Germany had possession of Austria's ultimatum to Serbia 14 hours before it was delivered to Belgrade, according to positive information which has reached officials here, and which was made public today for the first time. It was stated that former Foreign Secretary Zimmermann admitted this himself when pressed very closely as to Germany's foreknowledge of the action of her ally, which precipitated the European war.

Germany has maintained consistently in all her public documents that she was not consulted by Austria as to the ultimatum and did not even have knowledge of the step.

Foreign Secretary Zimmermann's admissions, however, is interpreted here to show that Germany had full knowledge of the note in time to have stopped action on it if she felt it essential. Her inaction, however, is thought to have proved her an accomplice of Austria.

Shooting Is Result of Death Pact

Woman and Man Wide Out Into
Lake and Both Attempt
Lives

ONLY ONE SHOT FATAL;
POLICE PROBE AFFAIR

Fergus Falls, Minn., Aug. 3.—Police were asked today to solve the mystery of the shooting of a woman and a man after they had waded out into Long Lake, 12 miles north yesterday. The woman was killed by a wound in the left temple and the man was shot in the right temple, but his wound did not prove fatal, and he went to a resort hotel to ask for another revolver and was taken into custody by officers. The man told an incoherent story, giving his name as Newlands, and that of the woman, who he said was his mother, as Mrs. Lind or Lindberg. He said she shot herself, but the fact that her wound was in the left temple made police doubt that. He said they lived in Minneapolis, but formerly lived at Cloquet, Minn. Police believe he is insane, and that the shooting was the result of a suicide pact.

BUTTE HANGING DENOUNCED BY METAL UNIONS

Attorney General Declares Murders
of I. W. W. Official
Will Be Run Down

STATE INVESTIGATION
DEMANDED BY CITIZENS

Butte, Mont., Aug. 3.—The issuance of a "bulletin" by the Metal Mine Workers' union, denouncing the lynching of Frank H. Little, executive board member of the Industrial Workers, and charging company gunmen with the lynching of Little, featured the day, which otherwise was quiet aside from the failure of W. G. Sullivan, counsel for the union, to be able to disclose the names of the slayers of Little, which he said last night he could do.

Sullivan was brought before County Attorney Joseph R. Jackson and Attorney General S. C. Ford. It developed that the lawyer for the strikers had no definite information as to the identity of the lynchers. Sullivan promised he would try to establish the identity of the men.

Names Given.
Sullivan, who is the editor of a daily bulletin published on behalf of the striking miners, gave the names of men said to be active as gunmen for the company.

I. W. W. leaders stated today that they had a message from Congresswoman Jeannette Rankin expressing her horror of the murder, and assuring them that she was endeavoring to bring about a federal investigation of the killing.

Police and county officials tonight expressed themselves as completely satisfied with the identity of the men.

ALLIES HOLD POSITIONS ON FLEMISH LINE

Bogland Produced by Torrential
Rains Over Front of Offensive

RETAKE POSTS WRESTED
IN COUNTER ATTACKS

Attackers Force Their Way Into
Underground Tunnels Filled
With Men

British Front in France and Belgium, Aug. 3.—The British and French and the Germans alike along the front of the battle in Flanders still held their positions late today in an iron grip of bogland produced by the torrential rainstorm which has been deluging the battle line.

Beyond artillery observations, which are continuing, there is little activity, with the exception at one or two points and the French and British were resting on their consolidated positions which they captured from the Germans in the first few hours' onslaught. St. Julien today continued to be the storm center, the artillery of both sides pounding steadily at their opponents' positions about this place. The British were again in possession of the 300 mile front just north of Prozenberg, which the Germans wrested from them in a counter attack late yesterday.

Sharp Drive.
In a sharp drive last night, with heavy artillery preparation, the British forced the Germans from this position and have held it since. This was the only German counter attack since Wednesday.

Reports show that the front from Hellebeke and La Basselleville was the scene of some of the heaviest fighting of the day. The Australians and English, charging along this line, swept over many Germans lying in shell holes, who were overlooked in the semi-darkness. After the British troops had gone beyond these holes, the Germans began smashing at the rear of the advancing forces. These snipers were eventually dealt with and the shell holes cleared. The German troops in this section made a stiff fight.

Force Their Way.
In the village of Hellebeke the British were faced with large numbers of concrete dugouts, which had no surface entrances, but which were approached by tunnels. The attacking troops forced their way into the stronghold, which contained large numbers of men, and blew them to pieces with bombs. This underground tunnel is still filled with German bodies.

ENTER CZERNOWITZ.
Vienna, Aug. 3.—Austro-Hungarian troops have entered Czernowitz, the capital of the crownland of Bukovina.

BOMBARD POLA.
Rome, Aug. 3.—Large squadrons of Italian airplanes effectively bombed the arsenal and military works of Pola, the chief naval station of Austria-Hungary on the Adriatic, according to an official statement made today by the Italian war department.

REGAIN GROUND.
London, Aug. 3.—British troops, according to the official statement issued today by the British war department, (Continued on Page Three)

American Tank Craft Routs Sub

Gunnery on Merchantmen Engage
in Running Fight With Submersible

NONE OF ENEMIES'
SHOTS HIT THE MARK

An Atlantic Port, Aug. 3.—An American tank steamship, loaded with gasoline, was engaged in a running fight with a German submarine on July 15 when near the French coast, and escaped destruction by superior speed, after a torpedo had been launched and 21 shots had been fired from the U-boat deck guns, according to officers of the vessel on arrival here.

The submarine appeared after the wake of the torpedo had warned the officers on the steamer of the appearance of an enemy. None of the shots fired by the submarine reached their mark. The American gunners on the tanker fired 16 shots in return, but without results so far as could be ascertained. The captain of the tank steamer asserted that the dangerous cargo he carried induced him to seek safety in flight rather than to try for conclusions at close quarters.

Eight naval gunners were lost when the American tank steamer Motono was sunk by submarines. Sixteen members of the crew also perished.

NO IRON FOR JAPAN UNLESS NATION ASSISTS

Vessels of Empire Must Be Diverted
at Once for War
Usages

NORWAY AND HOLLAND
READY TO GIVE BOATS

Washington, Aug. 3.—The imperative need of ships in the transatlantic service, was disclosed today in indications that the shipping board is preparing to commandeer all American tonnage and in an order issued by President Wilson which has the effect of cutting off steel exports to Japan unless Japanese vessels are diverted to war uses.

The shipping board, probably within a few days will requisition ships under authority recently given to the president by congress, and probably will turn the vessels back to their owners for actual operation. The government, it is said, has no desire to operate the vessels itself, but through control of charters can direct trade routes and at the same time lower ocean freight rates.

Neutral Ships For Food.
Continued tonnage and vessels taken off South American runs to be put to carrying supplies to Europe probably will be replaced in large part by neutral ships. Both Norway and Holland are ready to release a large amount of tonnage for allied use in return for food shipments. A resolution pending in congress, drawn by administration officials, would permit vessels of foreign registry to ply between American ports.

The British and American governments have both reached an agreement for a joint control of all the world's tonnage and the shipping board's move toward commandeering is a preliminary step in that arrangement. Under the plan, the United States would operate most of the neutral tonnage and Great Britain would control allied ships. The arrangement would be used to bring down foreign rates.

LIGHT FROSTS ARE REPORTED

Brainerd, Minn., Aug. 3.—The government thermometer registered 33 degrees here early today and light frosts were reported at several places in county points. No crop damage is noted.

WAR TAX BILL ABOUT FINISHED

Washington, D. C., Aug. 3.—The war department tax bill, increased from 24,000 to approximately 250,000 dollars, was completed today in the senate finance committee, and will be reported to the senate tomorrow or Monday.

In preparing the final draft for the printer the committee reduced the tax on beer by 20 per cent, to \$1.00 per barrel in addition to the tax under the present law, and increased rates on wines to about double the present rates, and estimated to yield \$17,000,000 additional.

An important amendment was made to apply the one-cent bank check tax to all accounts, raising about \$1,000,000 in all. The bill previously taxed only checks for more than \$1.00. The committee also wrote in a new provision exempting from all postage letters written by American soldiers and sailors in foreign lands.

GEN. HAIG IN SWIFT COUNTER ROUTS ENEMY

Germans After Biting Into Lines
at Arras Are Forced Back
Again

AINSE REGION SCENE
OF VIOLENT ATTACKS

On Russian Front Austrian
Crownland of Bukovina Is
Overrun by Tautons

(By Associated Press.)

The Flanders front, where the great offensive launched by the entente on Tuesday is still being held up by unfavorable weather, remains the center of military interest.

Today's official report revealed that the Germans last night delivered an attack on the Arras front, biting into the British line. There was a swift reaction by General Haig's forces, and by this morning part of the lost ground had been regained.

Likewise, on the French front, in the Aisne region, there have been violent German attacks. The stroke was delivered in a front of about a mile in the vicinity of Cerney. It failed under the French fire, the crown prince's troops suffering heavy losses.

On the Russian front the Austrian crownland of Bukovina again has been virtually overrun by Austro-German forces, which were enabled to advance by reaction of the recent disastrous break in the Russian line to the north.

RETIREMENT CONTINUES.
Petrograd, Aug. 3.—Klimovsk, in southern Bukovina has been evacuated by the Russians, the war office announced today.

The Russians are now engaged with the Austro-Germans on the river Bykova. Between the Jankov and Pruth the Russian retirement is continuing.

Sarnowicz has been the scene of some of the most bitter fighting of the war, and the Bukovina capital has changed from Russian to Russian hands altogether in time.

COMPLETE ROSTER OF COMMISSIONED OFFICERS OF 1ST DAKOTA

Line-Up With Which Old Original
Probably Will Go Onto Fire

Adjutant General Fraser today issued the first official and complete roster of officers for the First North Dakota regiment, recently mustered into federal service, as follows:

Colonel, John H. Frazer, Grafton; Lieutenant Colonel, Gilbert G. Grafton, Fargo.

Majors. T. C. Patterson, Lisbon; First field hospital, Frank S. Henry, Valley City; Second field hospital, Dan W. White, Jamestown; second battalion, Harold Sorenson, Fargo; quartermaster corps, Charles L. Hunt, Valley City; sanitary detachment, B. C. Boyd, Hillsboro; third battalion.

Captains. Manville H. Sprague, Grafton; supply company, Thomas J. Thomsen, Wahpeton; Co. I, Harry R. Evans, Williston; Co. E, David S. Ritchie, Valley City; Co. G, James D. Gray, Jamestown; Co. H, Louis L. Eckman, Grand Forks; machine gun Co., Theodore M. Parker, Dickinson; Co. K, Theodore S. Henry, Valley City; headquarters, Co. F, Earle R. Sailer, Hillsboro; quartermaster corps, Warren A. Stickley, Bismarck; quartermaster corps, John W. Murphy, Bismarck; Co. A, Robert Wilson, Mandan; Co. F, J. G. Ostedahl, Grafton; Co. L, Oscar G. Helm, Grand Forks; Co. M, Reginald F. E. Colley, Fargo; Co. N, Henry P. Halvorson, Hillsboro; Co. O, Otto F. Gross, Minot; Co. D.

Lieutenants. Fred A. Moore, Grand Forks; Co. M, Perro A. Olson, Hillsboro; Co. L, Frank C. Hill, Fargo; Co. B, Carl E. Baker, Wahpeton; Co. J, Albert J. McFarlane, Jamestown; Co. H, H. H. Hamilton, Jamestown; adjutant third battalion, Milton K. Mason, Valley City; Co. G, Alvin Steinhilber, Jamestown; adjutant second battalion, A. E. Whitney, Minot; adjutant first battalion, Albert E. Dickson, Co. K, Peter A. Duchon, Grand Forks; machine gun Co., Hugo O. Brown, Mandan; Co. F, Lloyd Erickson, dental corps; W. K. Schramm, Grafton; Co. C, Adolph H. Scharnowski, Bismarck; Co. A, John A. Kasper, Mandan; dental corps, Ellis E. Swartout, field hospital, Lee H. Groop, field hospital, Charles Patterson, field hospital.

Second Lieutenants. Leo Domalek, Wahpeton; Co. I, James C. Grafton, Grafton; supply Co., Kay Ross, Valley City; Co. G, S. A. Hayes, Minot; Co. D, John R. Frazer, Bismarck; Co. A, Cecil D. Page, Grand Forks; machine gun Co., Charles J. Kunz, Dickinson; Co. K, Carl H. Erickson, Williston; Co. F, John A. Timmerman, Mandan; Co. E, Allen S. Gilbertson, Hillsboro; Co. L, Earl E. Hanson, Grand Forks; Co. M, Myron Omile, Grafton; Co. C, Fred G. Guthrie, Grand Forks; machine gun Co., John Volet, Jamestown; Co. H, Earl W. Smith, Fargo; Co. B.

These firkins of butter, posing for their picture, contains \$1500 worth of "little dabs," and they're only one twelfth of one factory's daily output. Inset is M. P. Knudson, Danish manager of Big J. A. Long & Co., factory at Union City, Ind.

Union City, Ind., Aug. 3.—Note well the tiny dab of butter at your elbow. It is creating a new line of middle west term "Kings Butter Kings" who think the day lost that doesn't produce for each of them from 4000 to 5000 pounds of butter at least.

You could never tell by its looks that there are millions in it, mister.

(Continued on Page Three)

IT'S EASIER TO LEARN TO FLY WARPLANE THAN TO RUN AUTOMOBILE

Manly Sees War Eagles Turned Out in Four Hours

Remarkable Curtiss Training Machine, With Dual Control, Is Responsible for Speed

By Basil M. Manly
Minneapolis, N. Y., Aug. 3.—It's easier to learn to fly a warplane than to run an automobile!

That's what I learned at Mineola, the eagle's acie—the nesting place of the great American bird, king of the skies.

For Uncle Sam's great Mineola aviation field is the school where the eagle's young are taught to swoop over the fields of France, carrying terror to German vultures.

Easier to learn to fly than to learn to run an auto! How long did it take you, or your neighbor, to gain the confidence of his machine? Well, at Mineola mere boys become expert pilots, ready for the finishing touches of instruction in war combat, IN FOUR HOURS.

Most autoists stay out of the downtown traffic congestion for four weeks, to say nothing of four days. And as for auto mastery in four hours—unheard of!

"That boy is one of our best graduate almen."

I followed the gesture of my officer—guide to a figure in khaki.

Then like a jolt in the ribs came from the officer:

"HE LEARNED IN FOUR HOURS. HE IS READY FOR FRANCE."

I had turned my gaze back to the sky. Things had seemed interesting there. Half a dozen huge planes were circling, passing and repassing. I had been thinking a collision was about due.

But—"Became a star air pilot in four hours!" I studied the boy—yes, boy, apparently about 20, slim, cool, no swagger, just plain American boy. I had made a mistake craning my

neck upward. After that I kept my eyes closer to the ground.

And the most important thing I learned at Mineola was that the men, the soul of the eagles, were more worth watching than the air, the element they conquered, or the planes, their wings.

"Just tell me," I said to the officer piloting me past hangars, tents and barracks, "how they do it."

He matched my surprise, "Why," with a shrug. "They learn to fly alone in 10 hours they leave, so they won't waste our time. After 20 hours of actual flying they are ready to become officers—or cadets. They must have passed all the test stunts—cross-country flights, triangular flights, accurate landings on fixed marks, and so on."

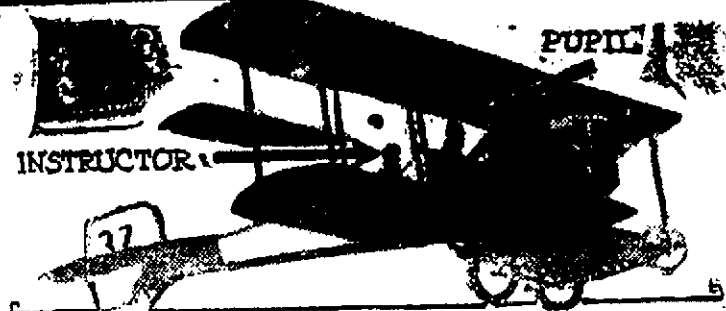

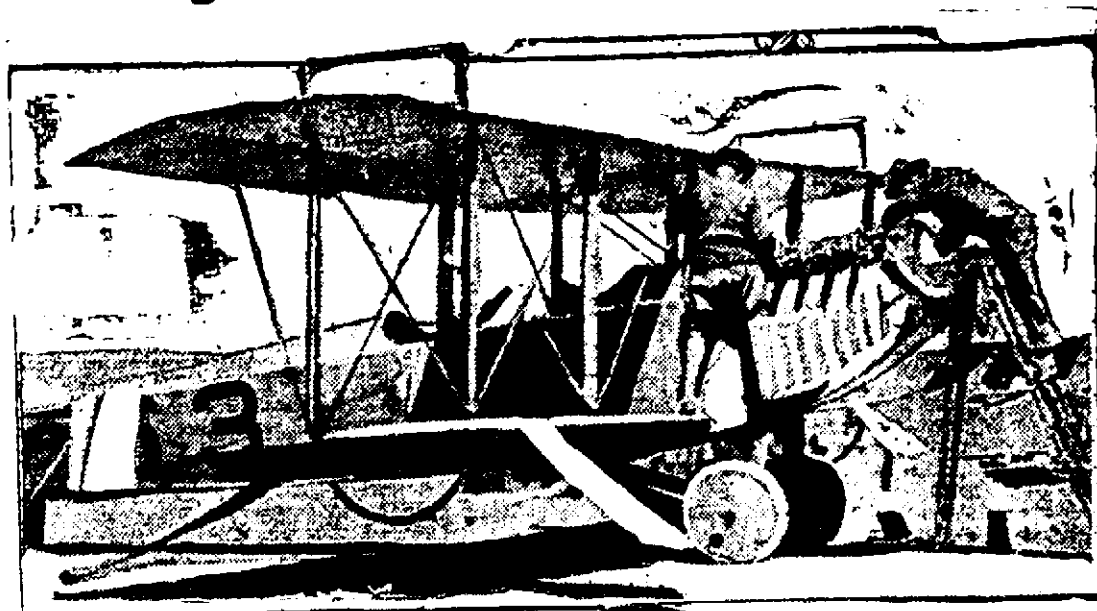

"Then, as officers, after a little time at an advance school, here or in France, learning to handle fast machines, aerial gunnery and bomb dropping, they are ready for their first air battle."

The remarkable Curtiss JN machine, greatest training airplane in the world, adopted by the British, is responsible

It is a dual-control machine—just as if an automobile had two steering wheels, two gear shift levers, two fuel controls, so the instructor could at any time check or correct the learner without interfering with him.

There are two seats, one directly behind the other. In front of each is a complete set of controls, interlocked. The pupil climbs into the front seat. He keeps his hands and feet on the controls to learn the "feel of it." The instructor, in the rear, manipulates them.

An auto steering wheel, turning from left to right for sidewise direction, and swinging backward and forward

ABOVE—GIVING THE EAGLET'S TRAINING MACHINE THE LAST ONCE OVER BEFORE A FLIGHT. BELOW—PUPIL AND INSTRUCTOR IN FLIGHT.

ward for up-and-down direction, a steering bar on the floor operated with the feet like the steering bar of your old sled, and the engine throttle—these are the controls.

The second time up for his 30 minute lesson the pupil does the flying, and if he makes a false move the instructor's hand checks him. The fourth or fifth time up the instructor doesn't expect to do much checking. He's there for safety only.

And "safety first" is the motto all over the aerie. One broken strand of wire, out of a dozen cord of 20 strands, means repairs. Every machine is thoroughly overhauled before every flight.

BISMARCK LEADS IN NUMBER OF MILITARY UNITS IN THE STATE

Minot has stirred the ire of Bismarck by claiming to be the most patriotic city in the state. In support of its contention, Minot points to its two infantry companies, D in the First and A in the Second, the Second field hospital. Bismarck comes back with the enumeration of two infantry companies, A in the First and I in the Second; its headquarters company in the Second and the Second regimental band now quarter here, giving the capital city four units to Minot's three.

Man Who Insulted Soldiers Shot in the Error of His Ways

Beach, N. D., Aug. 3.—M. Marks, representing himself as an agent for Collier & Sons of St. Paul, when he insulted the color sergeant of Co. M as the boys marched past the Beach theatre, was escorted to Camp Revere by a detail of guardsmen, compelled to bare his head, fall upon his knees and kiss the flag, and then was taken to a Northern Pacific train and seen safely from the city.

CAPTAIN KELLERAN OF CO. F QUILTS—SARLES AND ROCK MAKE TRADE

Adjutant General Fraser has accepted the resignation of E. E. Kelleran as captain of Co. F, Second infantry, and for the purposes of the muster

North Dakota Furnishes Most Aberdeen Men

Aberdeen, S. D., Aug. 3.—North Dakota has proven its patriotism by furnishing 29 of the 135 recruits for the regular army who have enlisted at the local station during the past week.

Beach Boys Kick Out Of Company Man Who Stole Widow's Mite

Beach, N. D., Aug. 3.—The Smashing Second has no place for petty thieves. When complaint was brought by a woman in a local lodging house against Orven Hillman, accused of stealing \$13 from her, the boys of Co. M, upon his confessing the theft, compelled him to turn over the unpaid balance, made up the deficit out of their own pockets, and then literally kicked Hillman out of the company, with a dishonorable discharge as a memento.

MINOT MAN HEADS PYTHIANS OF NORTH DAKOTA FOR YEAR

Carl Bach Grand Chancellor—
Other Grand Lodge Officers
Elected

Williston, N. D., Aug. 3.—Pythian Grand lodge officers for the ensuing year elected at the annual convention here are Carl Bach of Minot, grand chancellor; George W. Wolbert of Williston, vice grand chancellor; August E. Johnson, Washburn, grand prelate; Louis N. Abbott, Fairmount, grand keeper of records and seals; W. J. Evans, Cando, grand master of exchequer; S. D. Scott, Williston, grand inner guard; James Kilshaw, Ray, grand outer guard; J. O. Robertson, Carrington, grand trustee; James A. Dinnie, Grand Forks, supreme representative; Edward C. Anderson, Fargo, alternate.

NON-COMS OF FIRST DISCHARGED TO TAKE SECOND COMMISSIONS

New Regiment to Be Largely Officered by Privates Who Have Won Stripes

Following his practice of officering the new Second regiment, wherever possible, with non-commissioned men from the First regiment who have earned their stripes, Adjutant General Fraser announces the release by orders of the central department, of the following enlisted men, to accepted commissions as noted in the Second: Private Milton Thompson, Co. M, to be second lieutenant; First Sergt. Lewis W. Thune, Co. B, to be second lieutenant; Sergt. William C. Paulson, Co. A, to be second lieutenant; Private J. E. Hoffman, Co. G, to be second lieutenant; Sergt. Bert Weston, headquarters company, to be first lieutenant; Private John A. McDonald, headquarters company, Second infantry, to be second lieutenant. All of the enlisted men discharged to accept commissions with the exception last noted are from the First regiment. Charles L. Rouse, recently commissioned captain of the Crosby company in the new regiment is a member of the national guard in the District of Columbia, and his discharge has been referred to the commanding general of the eastern department.

PAVING EXPERT HERE TO SEE THAT STREETS ARE PUT IN CONDITION

Bitulithic Man Explains Why Pavements Have Had Their Spotty Appearance

Paving Expert M. J. Taylor, of Portland, Ore., representing the Warren Construction Co., has arrived in Bismarck to put the bitulithic pavement which was laid last fall in first class shape.

"In order to give the city pavement during the past winter," said Mr. Taylor today, "the work was started late in the fall, and due to very cold weather at that time a larger percentage of flush coat was used than is usual."

"The excessive hot weather of the past two weeks has brought out the extra asphalt, causing the sticky appearance and marking of the surface and that the trouble is due solely to this cause and none other is demonstrated by the fact that the work done this year is in fine condition."

"The streets will be thoroughly sanded and roled by Supt. J. Jamar of Hinton & Oles Co., under my supervision."

SIAM, IN WAR, TO SEND THESE MEN AGAINST GERMANY

Siam is preparing to send men like these to help the allies in the war against Germany. They are the type of soldiers of which Siam, the latest nation to declare war against Germany, has 50,000.

(More than a pound and a half for a quarter)

Bevo

and a "cold snack"

How does this sound as a suggestion for a meal some day during this hot weather? Cold boiled ham, potato salad, rye bread, and ice-cold Bevo.

Bevo was made with meals and "between meals" in mind. It's an all-round soft drink. Enjoyable and refreshing all by itself and of just the flavor to go with any food—hot or cold—and to make it taste better. Pure—wholesome—nutritious.

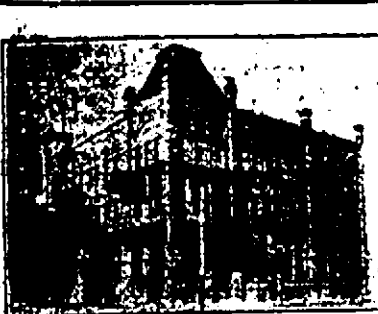

Bevo—the all-year-round soft drink.

Bismarck, N. D.

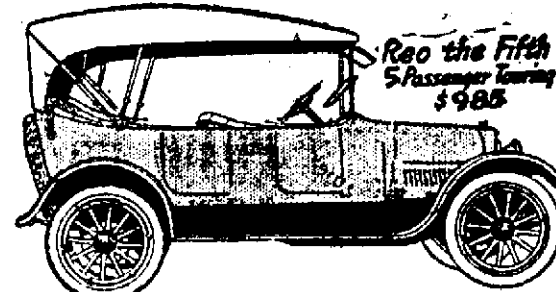

Reo Quality is Uniform in all Reo Models

AND REO QUALITY at Reo Prices and backed by the Reo guarantee, constitutes "The Gold Standard of Values"—each model in its class.

THERE ARE NOW SEVEN Reo Models, comprising Four in Touring and Roadster types; Six in Touring, Roadster and Sedan; and the two Reo Commercial Vehicles—the 3/4-Ton "Speed Wagon" and 2-Ton "Heavy Duty" Truck.

IN THIS ADVERTISEMENT we have space only for a brief paragraph pertaining to each Reo Model—lest you forget the line is so complete that you can find the car you desire, in the type you prefer, and in a Reo.

REO THE FIFTH "The Incomparable Four" is America's most famous automobile. Standard in practically its present form for now eight seasons—"going on nine". At its present price, \$985, this car is verily "A gold dollar for ninety cents".

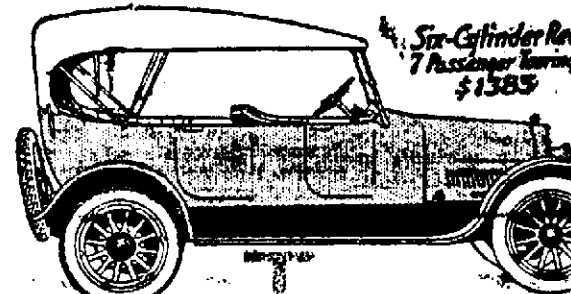

TO REO THE FIFTH more than to any other, is due the movement that is now so apparent—the return to the Four-cylinder type in all cars listing at less than \$1,000.

THE FOUR ROADSTER is the handsomest model of its type you'll see on the road—at any price. And, for the present, you can get it for \$985 and freight from the factory.

OF THE SIX ROADSTER the same is true, plus the extra luxury it affords the owner at the extra cost—\$1,385 f. o. b. Lansing.

THESE TWO ROADSTERS are of similar design and identical construction and are conceded to be the handsomest cars of the type—price aside.

FOR THE FAMILY that needs a car of greater capacity than five and yet of moderate upkeep, the Reo Six Touring Car—also \$1,385 for the present—knows no equal.

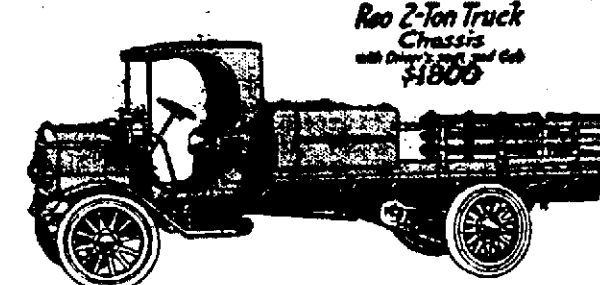

NO MATTER WHAT YOU PAY you cannot obtain a 7-passenger car of better design; one that represents sounder engineering; more experience; better materials and workmanship than enter into the making of this Reo Six.

THAT'S A BROAD CLAIM but we make it unhesitatingly—and you know that the word of Reo passes at par everywhere.

THE REO SIX SEDAN is the best of all the Reo models—and therefore represents the best of Reo experience and taste.

REFINED AND IMPROVED at every point where last season's experience showed the need or the opportunity. This body is staunch in construction as well as graceful in curve and line.

AT ITS PRICE, \$1,950, you will not find its equal—not at a thousand dollars more, its superior. We state that in all confidence too.

OF THE REO TRUCKS what need we say here? The 3/4-Ton "Hurry Up" Wagon at \$1,125 (chassis 1050); and the famous 2-Ton Reo "Heavy Duty" Truck at \$1,800—each is the leader in its own class—demand greatly in excess of factory capacity.

BUT THAT IS TRUE of all Reo models, without exception.

THAT'S WHY WE SAY "Reo Quality is Uniform in all Reo Models," the uniform over-demand for all Reo models justifies the statement.

ORDER NOW if you'd have your Reo soon. Present prices are guaranteed only till December first. If you order now and specify delivery before that time, you'll get your Reo at the present price.

EXEMPTION BOARDS HAVE POWER TO RULE ON SLACKER GROOMS

Provost Marshal General Crowder
Says Question Is Left to
Members' Discretion

Whether a man's recent marriage entitles him to exemption under the draft law is a question for each local board to determine at its own discretion. Provost Marshal General Crowder advises the adjutant general's office in a wire received this morning.

"The provost marshal says in part: 'Concerning recent marriages, the selective service law does not require discharges in all cases of technical dependency, but only discharges where in view of dependency a discharge is advisable. Local boards may well hold that a marriage hastily consummated recently and especially one consummated by a person after he has been called to present himself for examination to determine his fitness for military services does not create a status of dependency in which it is advisable to grant a discharge.'

"It is to be expected that local boards will exercise this full discretion in cases where they are convinced that unscrupulous persons have violated the principles of the selective service law in the hope of escaping a duty that is rightly theirs and of passing that duty on to someone else."

STATE OF SEIGE
London, Aug. 3.—A state of seige has been declared in the whole Greek department at Athens, including Athens to the Exchange Telegraph Co.

BUTTE HANGING IS DENOUNCED

(Continued from Page One)
murderers of Little. Attorney General Ford announced his determination to run down the murderers and said last night that the state of Montana would offer a large reward for the apprehension of the criminals.

GETS APPEALS.
Helena, Mont., Aug. 3.—A request from the Montana state Metal Trades council for an investigation into the hanging of Frank Little at Butte on Wednesday, and a similar one from "the citizens of Index, Washington," were received today by Governor S. V. Stewart. C. O. Edwards signed the telegram from the Metal Trades council, which read as follows:

"We respectfully request and urge a speedy investigation of the lynching of Frank Little in this city this morning, and believe it to be to the best interest of organized labor and the government that this be considered at once."

A R. Tucker and six other persons signed the following telegram received from Index, Wash.:

"We, the citizens of Index, in mass meeting assembled, respectfully demand an immediate state investigation of the lynching of Frank Little at Butte and punishment of the perpetrators of the crime to the end that there may be no repetition of such dastardly outrages."

Attorney General Ford left for Butte Wednesday night to make an investigation. Governor Stewart will await a report from him before taking action.

That the I. W. W. situation in Montana is attracting general attention is evidenced by a drastic resolution passed by the Montana State Bankers' association at Great Falls, in which it appeals to the president and to congress "urging that forthwith suitable legislation be enacted clothing the military branch of the government with authority to enable it to deal expeditiously and summarily with the I. W. W. organization and with all traitors and suspected traitors to the government of the United States."

Mr. Ford stated that Governor Stewart and all other state officials were deeply shocked and horrified when they first received word of the murder.

der. "Immediately state machinery was set in motion and every effort is being made to cooperate with county and city officials in the apprehension and subsequent conviction of the six or seven men who took Little by surprise in his room Wednesday morning. A 'Cold Blooded Murder.'

Mr. Ford stated that Governor Stewart had termed the lynching "an atrocity and a cold blooded murder." While the attorney general returned to his headquarters in Helena last night, he will continue to work upon the case for some time.

I. W. W. CURSES FLAG; ARRESTED BY GUARDSMEN

Salt Lake City, Utah, Aug. 3.—With a deep bayonet wound in his back received when he resisted national guardsmen, when they arrested him, J. L. W. Longfellow, an admitted I. W. W., is in the Salt Lake county jail. His arrest was effected in Gingham after, it is alleged, he had cursed the government and daunted the United States flag.

LITTLE DAB OF BUTTER AT YOUR ELBOW

(Continued from page one)
Last year they produced more than one billion pounds of it.

Respect that tiny dab of butter at your elbow! Why, for the purpose of making a photograph there were piled up at the local creamery of J. A. Long & Co.—one of the largest in the country—40 odd firkins of butter, representing a value of \$1,000.

Fifteen hundred dollars all in one effort. And it represented only about one-twelfth of the day's production in this creamery which works day and night. If as the \$1600 worth of firkins were posing for their picture, the price of butter had advanced only one cent—as it often does nowadays—their value would have gone up \$35 as you looked.

Ah, little dab of butter, you're some baol!

That's how quickly money is made among the butter magnates.

The butter works for them while they sleep. One of them may have in transit 300,000 pounds. And if, while the butter is thus on the way, the market price goes up one cent per pound, the butter at its destination is worth \$3000 more than when it left the factory.

But it works the other way, too. One day, according to Long's Danish manager, M. P. Knudsen, they had 300,000 pounds on hand and there was a drop of 7 cents.

"That made a different story," he said. But he smiled in a manner that indicated it ended happily. Long started buying and selling butter, eggs and chickens in a small way about 40 years ago. In those days butter was made in the old family churn. It was a pretty way, with ma in her neat gingham sunbonnet presiding. It was picturesque, but not efficient, nor always sanitary, nor highly profitable.

Today the farmers sell their cream to Long who makes 5,000,000 pounds of butter a year out of it. His ambition is to make 10,000,000 pounds, and to that end he is building a new factory. He will then, it is said, have the largest butter industry in the world, making 1 million City butter capital.

He would take the cream as it was, germs and all. Long has 200 field stations to which farmers bring their cream to be tested for butter fats. The farmer sees the test made and gets his cash immediately.

Long uses about 25,000 gallons of cream each day and last year there accrued to him as a by-product \$20,000 worth of butter milk.

Last year there was shipped out of this town—population 3,300, according to the last census—\$2,000,000 worth of butter to all parts of the world, including Japan and Russia.

Yes, timid little dab of butter, you have your romance.

ELKS' MEETING

A regular meeting of Bismarck Lodge No. 1199, E. P. O. E., will be held at the Elks' home this evening. Important matters will come up for consideration, and Brother O'Hara, delegate to the grand lodge, will make his report. All Elks are requested to attend.

WILLIAM O'HARA, E. R.
P. R. FIELDS, secretary

CAR GOES INTO HOLE IN ROAD NEAR TOWN

An automobile tour, which Mr. and Mrs. G. J. Schanrock of St. Paul were enjoying, was suddenly interrupted when their car went into a hole in the road near one of the Apple creek bridges, smashing the front axle and a wheel and rudely jarring the occupants. Recent rains had washed the earth away at the approach to the bridge, and a guard rail had fallen down, leaving nothing to warn the automobilist. The car, a Mitchell, was towed to Bismarck for repair.

A Maxwell, whose ownership is unknown, was smashed by running head-on into a telephone pole near the penitentiary this week and was still there yesterday.

Frank's famous sausage of Milwaukee will be demonstrated at the Kupitz company store Saturday. Don't forget to come in and have a sample.

See Mary Minter at the Grand tonight.

HAS RIPE TOMATOES—Ernest Wadsworth, secretary to the state board of control, is proudly advertising the fact that he picked his first perfect tomato from his garden last evening.

SENATOR THORESON KILLED; ACCIDENT DISCHARGES GUN

Hastings, N. D., Aug. 3.—Word has been received here of the death of Senator Thoreson at his home in Shevonne valley. It is reported that a gun which he was cleaning was accidentally discharged, causing his instant death.

It was impossible to verify this report today, the only advance received at the capitol being contained in this dispatch. Martin Thoreson was one of the best known members of the upper house, in which he represented the 25th legislative district. He was elected a representative in 1905 and re-elected to the house in 1906 and 1910. He was first elected to the senate in 1910 and was re-elected in 1914, having recently served his fourth term in the upper house. The senator was born in Norway in 1856, was married and has four sons. He came to North Dakota from Christiania, Norway, in 1883, and had become one of Barnes county's most prosperous farmers and among its most influential citizens. Politically he was a republican.

M'GUIRE OF GRAND FORKS ARRESTED FOR IMPERSONATING OFFICER

St. Paul, Minn., Aug. 3.—Robert McGuire, also known as Thomas Curney, of Grand Forks, who claims to be the inventor of a wireless torpedo which will destroy submarines, is under arrest in St. Paul on a charge of impersonating a federal officer. He was arrested when he dashed a tin badge on secret service agents here and told them he was on a "big government job." McGuire is said to have run up a \$125 bill with a local taxi on "government business," and is wanted in Minneapolis on a forgery charge. He was arraigned today in St. Paul and pleaded not guilty. He will be given a hearing late today.

STATE CAN'T INTERFERE WITH GRADING OF GRAIN SAYS EQUITY MANAGER

No state has anything to do with grading of grain when the government grades go into effect August 1, writes P. H. Gallagher, manager of the Farmers' Equity Elevator Co. of Bucyrus, in paying his respects to North Dakota's much abused grain grading act, in a letter received by the railway commission today.

MRS. ROSS AGAIN DENIED RIGHT TO RECOVER DAMAGES

A final chapter in the notorious Ross-Cooper murder case which has occupied the courts constantly for several years was written in supreme court when the court handed down a decision adhering to its original action in reversing the Traill county court's verdict awarding Mrs. Ross damages in the sum of \$25,000 from the senior Cooper for the alleged murder of her husband by McLean Cooper, son of the owner of the farm upon which Ross was employed as foreman. After the supreme court's reversal of the lower court rehearing and re-argument were granted, and the court today reiterates its stand that Mrs. Ross cannot recover from the elder Cooper for the death of her husband at the hand of Cooper's son.

PERSONALS
George W. Hancock, well known Fargo architect, is in the city today. F. F. Satterlund of Washburn was a Bismarck visitor today. Robert D. Berry, county auditor, and Don Stevenson, sheriff of Grant county, are in today from Carson. Sheriff R. W. Craig of Lisbon is in the city. Sheriff Craig is a son of Rev. Craig, formerly pastor of McCabe Methodist church, and now in charge of the First Methodist church at Dickinson. He is one of North Dakota's

SOCIETY

Return Home.
Dr. and Mrs. Fisher returned last evening from a week's vacation in the south and west.

Goes To Country.
Olga and Irwin Vigness, Marguerite Michelson and Lena Skinner motored north of the city to the C. L. Vigness farm Thursday and spent the day.

Johnson-Peterson.
Abraham Johnson of Watrous, N. D., and Miss Emma Peterson of Bismarck were married July 25, by Rev. E. F. Allson of the Swedish Lutheran church.

Leave Today.
Dr. and Mrs. Strauss leave today for Mrs. Strauss' home in Michigan. They expect to be gone several weeks, and will visit in the east before returning.

Guest Of Cousin.
Miss Martha Johnson of Prosser, Washington, and Miss Freda Johnson, postmaster at Washburn, cousins of Miss Hilma Anderson, of the board of control, have been spending a few days here. Miss Martha Johnson returned to Washington today, and Miss Freda will remain a few days.

Children's Party.
About 20 children were invited to spend the afternoon yesterday in the home of Mr. and Mrs. Burt Finney, when their niece Robert Finney, of Sioux City, Iowa, was honor guest. Games and other children's amusements were enjoyed. A luncheon was served at 5 o'clock. Miss Robert has been here about three weeks.

Entertaining Daughter.
Mr. and Mrs. J. K. Doran are entertaining their daughter, Mrs. Neal Wilkinson of Omaha, Neb., who arrived a few days ago. Mrs. Wilkinson joined her husband here, who preceded her to Bismarck. Mrs. Wilkinson was formerly Miss Bessie Doran. Mr. and Mrs. Wilkinson will remain a number of weeks.

Successful Demonstration.
The demonstration given by Miss Newton of Fargo college Wednesday and Thursday at the Baptist church in the interests of food conservation, cold tanning of fruits and vegetables, was successful. The attendance was splendid and keen interest centered in the talks and discussions given by Miss Newton. Many good ideas were presented, questions answered and round table talks were also a part of the program. Miss Newton left for Mandan and will give the ladies there antipastorally, to learn the art of food economy.

Mrs. Stewart Returns.
Mr. Dan Stewart returned to the city Wednesday from the east. Mr. Stewart states that Mrs. Stewart is having considerable trouble with her eyes, having been taking treatment ever since leaving here. Mrs. Stewart will not be able to return for several months. At present she is in Jamestown where she was called by the illness of her mother, Mrs. Laura Smith, who was overcome by the extreme heat last Saturday. Mrs. Smith's home is in Grand Forks and she had come to Jamestown to visit her mother, Mrs. Smith, and it was while visiting in his home that she was taken ill. Mr. Stewart will join Mrs. Stewart at Jamestown for Sunday.

DAYLIGHT SAVERS

Miss Lulu Waugh, above, and Miss Conneve Crotty, Sioux City, photographers, have beaten the government in adopting daylight saving for their own good. They got permission from their office manager to start work at 6, instead of 8, in the morning, and leave at 1:30 in the afternoon, saving the sweltering afternoon for rest and recreation. Other office workers are adopting their plan.

To Detroit Lake.
Misses Ruth Vynakoup and Bertha Luybeck have gone to Detroit lake, Minn., for a two weeks' vacation.

To Visit Parents.
Mrs. E. A. Thorberg has departed for Faulkton, S. D., where she will spend the next two weeks visiting with her parents who reside in that city.

To Leave Sunday.
Miss Bessie Varney is to leave Sunday for a several weeks' vacation. Miss Varney will go to Jamestown first and from there will go to various other points before returning.

To Family Reunion.
Mrs. G. W. Cochrane and children have gone to Oakes to attend the Eaton family reunion. Dr. Eaton, head of the clan, is a Civil war veteran and one of Oakes' earliest settlers.

From Goodrich.
Dr. and Mrs. McKenry and two little children of Goodrich visited with friends and relatives in the city several days this week. The doctor is one of the very prominent physicians of Goodrich county. They made the trip via auto.

Guest of Friends.
Miss Katherine Morris of 714 Sixth street, daughter of Mr. and Mrs. E. E. Morris, left this week for Blackwater, N. D., where she will visit friends for some time. On her return, Miss Morris will stop at Washburn, Calhoun, Garrison and Wilton.

Severn-Arneson.
A marriage was solemnized at Benson, Minn., July 18, when Miss Grace Arneson of Benson, and Morris Severn, of Jamestown, N. D., were united. Miss Arneson has been one of the teachers of the public schools there, and Mr. Severn is one of the popular young business men of the city.

En Route to Lisbon.
Mr. and Mrs. Dahl and Mrs. Harris, mother of the latter, went through Bismarck this week en route to Lisbon, where Mrs. Harris went to see her son, Paul Harris, who is a member of the regimental band. Mrs. Dahl and Mrs. Francis Murphy are sisters. The trip was made by motor.

Birthday Party.
Master Marlen Loehke, four-year-old son of Mr. and Mrs. A. A. Loehke of 407 Third street celebrated his birthday the first day of August. Joyful games were played and the little folks partook of a birthday feast at 5 o'clock. The cake with four candles was their delight. The following were present: Florence and Woodrow Christopher, Margaret Will, Arlin Anderson, Jerome and Clement Svore and Luther Klundt.

Splendid Meeting.
There was an exceptionally well attended and interesting session held at the Baptist church Wednesday evening, when the quarterly meeting was conducted by Rev. Bruce E. Jackson, the pastor. Three young men joined the church, and reports and all important business was taken up. This is the time when plans are laid for the fall and winter months and every phase for all sections of the working societies in the church had work mapped out to be done.

Entertain for Neice.
Mr. and Mrs. R. C. Battey entertained at dinner at the Country club last evening in honor of their neice, Miss Lena Battey of Council Bluffs, Ia. Miss Battey has been their guest for the last two weeks and left for her home today.

Covers were laid for 10. The guests included: Miss Battey, Miss Russell, Dr. Lipp, P. R. Fields, Mrs. Throdahl, Mrs. Baldwin, Mr. and Mrs. G. D. Malt.

Following the dinner there was dancing and Mrs. Baldwin, who is a dramatic reader, gave several selections.

CITY NEWS

Accepts Position.—Miss Sigrid Allson has accepted a position in the City National bank.

Bertach Improves.—Chris Bertach, police and fire commissioner, is improving rapidly from his burns.

Buys Cadillac.—R. C. Battey has purchased an eight cylinder Cadillac through the Bismarck Motor company.

Mother Ill.—Mrs. Frank Mithollan of First street has left for her old home in the east, called there by the serious illness of her mother.

A Baby Girl.—Mr. and Mrs. A. Risen of Bismarck rejoice over the arrival of a baby daughter born to them at the Bismarck hospital, Wednesday evening.

Here This Week.—Dr. Trainer of Williston was here this week, coming to take the examination in connection with qualifying for the medical staff of the army.

Enroute to Montana.—Jens Johnson and his son Holger Johnson of Devils Lake were Capital City visitors Thursday. They were en route to Montana on a business trip.

In New Home.—Mr. and Mrs. Arthur S. Bolster have moved into the house formerly owned by Mrs. Short on Mandan avenue. Mr. Bolster has purchased the residence.

Woodworth Visitors.—Will H. Wright, editor and publisher of the Woodworth Rustler, and W. A. Ruod of the First State bank of Woodworth were at the capital today, calling on N. A. Mason, secretary to the governor and a former member of the Rustler staff.

Enlisted.—Kennedy Wanner of Jamestown came to Bismarck this week and has enlisted in the Second regiment stationed at Ft. Lincoln. Mr. Wanner is one of the popular young men of that city, a graduate of Jamestown college, and active in all clubs and outdoor sports. Ken-

THIS LITTLE MISS INVITES A KISS

BY BETTY BROWN

New York, August 3.—This little miss, in dainty gown, invites a kiss, dispels the frown. A dainty dance frock for the wee girl, that makes her eyes dance with joy in the new dress! It's a pale blue, with charming, round necked bodice of cream lace. The empire waistline is finished with soft shirrings and cordings of same material as skirt. The border hem of narrow cording affords a smart, distended effect.

nedy Wanner is a son of Mrs. Fred Wanner and a nephew of E. G. Wanner of this city.

Company H, Entertained En Route.—Company H of the two sections, one from Fargo and one from Valley City arrived in Jamestown Tuesday evening en route to Bismarck, and President DeNault appointed the following as a committee to see that they received the proper social attentions: Dr. L. L. McLean, Dr. Hotchkiss, J. E. Mattison, and J. E. McElroy. The ladies of the Auxiliary gave a dancing party in their honor at the Armory, and the stay of the men in Jamestown was a most enjoyable one.

Frank's famous sausage of Milwaukee will be demonstrated at the Kupitz company store Saturday. Don't forget to come in and have a sample.

See the little girl at the Grand and Orpheum that has Mary Pickford beaten a mile, the dainty little star Mary Miles Minter.

HEBRON NEWS

Adam Byers returned Wednesday from a business trip to the Twin Cities.

Mr. and Mrs. Herbert Dichtennetter left Saturday for Chicago to attend the semi-annual laying convention of the U. C. C.

A big boy was born to Mr. and Mrs. E. Carleton last Sunday morning.

Miss Grace Landon returned Tuesday evening for a vacation visit at home after several months attendance at the interstate business college in Fargo.

In a game notable for heavy hitting and many errors, the Hebron baseball team defeated the Richardson team last Sunday afternoon by a score of 16 to 15. In spite of the heavy score, the game was interesting because it was close throughout. Russell pitched the first half of the game for Hebron, Weismann finishing it. O'Day

of Richardson went the full route. A strong wind toward the outfield resulted in several homeruns being registered.

Miss Idell Nelson of Granite Falls, Minn., returned to her home Tuesday afternoon after a short visit with the Theuring family. Mr. R. Theuring and son Laird accompanied her.

Steve Kaufmann, Andrew Kalp, Gottlieb Sauter, and several other members of the N. D. N. C. visited at home Saturday and Sunday.

Miss Winifred Robertson, who had been visiting in Hebron, left for her home in Willow City Monday afternoon.

You will have to go early if you wish a seat at the Grand or Orpheum tonight to see Mary Miles Minter.

MARY PICKFORD IN ATTRACTIVE ROLE

Mary Pickford's appearance is always one of charm. No matter whether she is in rags, the silk kimono of butterfly, the riot of colors of faraway India, the worn out home garments of Tess and the foundling or the clattering wooden shoes of Hulda, there is always the same charm, the same sweetness and the winsomeness that makes her so appealing to everyone.

In her latest Arctur picture, "The Prick of the Claw," to be seen in this city shortly, she portrays the Scotch lassie and when clad in kilts and with her golden hair thrown about her gracefully poised head she is more beautiful than ever. It is a character too that holds out every opportunity to the star for making it one of the most popular parts she has ever created. In other words, it is an ideal Mary Pickford part and that is just what all of the many Mary Pickford admirers most want.

She appears in two shows at the Auditorium this evening.

H. P. Remington, state's attorney of McIntosh county, and Mrs. Remington are here today from Ashley.

"A Dream or Two Ago" with Mary Miles Minter at the Orpheum and Grand tonight.

POPULAR TEACHER PASSES AWAY AT HOME OF PARENTS

Miss Marjorie A. McConkey Succumbs to Long Illness—Interment in Minnesota

Miss Marjorie Annie McConkey, daughter of Mr. and Mrs. J. A. McConkey, passed away at the home of her parents, 212 Second street, early this morning, after an illness of several months which forced her last spring to give up her position as a teacher in the high school at Pipe Stone, Minn.

The deceased was born at Maine, Minn., and was 31 years old. She resided here with her parents while completing her education, and for several years had been engaged as a high school instructor. She had a host of friends among the younger people of the city to whom her sad death comes as a blow.

Brief funeral services were held at the McConkey home at 4 o'clock this afternoon, Rev. H. C. Postlethwaite of the First Presbyterian church officiating, and the remains will be taken east on No. 2 this evening to Maine, Minn., the former McConkey home, where interment will be made tomorrow afternoon.

Besides the parents, there survive two sisters and two brothers—Mrs. A. B. Wells of Minneapolis, Montgomery W. McConkey of Washington, D. C., James A. McConkey of Terry, Mont., and Miss Margaret M. McConkey of Washington, D. C.

Man-Eating Stallion Costs Cow-Puncher a Set of Good Fingers

Mandan, N. D., Aug. 3.—Fred Otterburg, cowpuncher on the John Kreutz ranch, faces the amputation of several fingers as a result of a battle with a vicious stallion which bit in the clinches. Otterburg was mounted when he made an effort to round up the stallion. The latter tumbled Otterburg's steed off its pins, then lifted the horse by the neck from Otterburg, upon whom it had fallen, and snapped nearly all the fingers from his right hand. Otterburg escaped further damage by rolling under a convenient fence when the man-killer turned its attention to the horse. The hand has become affected, and hydrophobia is feared.

INCREASE NUMBERS OF CANDIDATES FOR OFFICERS' CAMPS

Washington, Aug. 3.—An increase of 30 per cent in the number of candidates to be admitted to the second officers' training camp, opening on Aug. 27, has been ordered by the war department. 16,000 have been admitted. The number has been raised to 20,800.

OFFICERS WHO DO NOT PASS ARE EXEMPT FROM NATIONAL ARMY DRAFT

Orders received from Brigadier General Mann, chief of militia bureau, confer upon Major Douglas Settle, mustering officer for North Dakota, authority to waive deficiencies of national guard officers who have failed upon examination, but who give promise of efficiency. Officers who are clearly undependable are to be notified that they no longer are recognized as national guard officers, and are excused by authority of the president from the draft. This rule applies whether these officers are now in federal service or not.

NEW BEDFORD AUTOISTS LIKE RED TRAIL SERVICE

Mr. and Mrs. Hartley Spencer of New Bedford, Mass., passed through Bismarck today en route to Yellowstone Park. They are making the trip in a Ford fitted up with a special seat cushion in which they sleep and cook. They have been on the road since July 5. They carry camp equipment and when weather permits pitch their tent. They camped along the Mississippi river en route.

After leaving Yellowstone Park they intend to proceed to Denver by the midland trail and home by a southern route. They report the Red Trail one of the best roads they have traveled and are enjoying the scenery through this section of the country.

Mr. Spencer is employed on a New Bedford newspaper.

Shipment of Liquor From Dry Territory To Wet Is Approved

Ten gallons of perfectly good liquor, legally shipped into North Dakota, has just been legally shipped out of the state, the interstate transaction in intoxicants having had the knowledge and approval of Attorney General Langer.

NEW ROCKFORD TAKES FIFTH CONSECUTIVE GAME FROM BISMARCK

Hands Champs Another Lemon at Fessenden Fair—Winning Runs in the Ninth

New Rockford, N. D., Aug. 3.—New Rockford won from Bismarck at Fessenden yesterday 5 to 3, this is the fifth game in a string that New Rockford has won from the capital team. Yesterday's was anybody's until the last frame, when the Eddy county city squeezed in two winning runs.

By Innings:
Bismarck 100 200 60—3 6 4
New Rockford 602 000 102—5 6 3

UNKNOWNNS AS BATTING KINGS

CRUISE, ROUSH, FISCHER MAKE THINGS LOOK BLUE FOR OLDER LEAGUE BATSMEN

When Hal Chase won the National league batting championship last year it was not surprising.

Chase has been in major league baseball for years and had seldom fallen out of the select 300 circle. The leading batsmen of either of the big leagues can usually be guessed at fairly close by knowing the fellows who have been hitting the ball from .325 to .350 in former years. As a general rule it is just a matter of breaks between a few of the best.

In the American league Cobb has held a corner on the honors with the exception of one season for 11 years.

In the National league it used to be Wagner, then Zimmerman grabbed it for a season after which Daubert, Doyle and Chase held the honors.

In no case did these honors ever go to an unknown recruit. Such a thing was unheard of, it "wasn't done."

But lamp over the list of leading batters in the National league this year.

Cruise, Roush, Hornsby, Fischer—looks like the National league, most conservative of baseball organizations, was to establish a brand new precedent in 1917.

Only one of the four now perched at the top has ever before won any recognition as a batter.

Roger Hornsby batted well in 1916, but many believed he was just a "flash in the pan."

But it isn't Hornsby who has the inside track for National league batting honors.

Unless one or the other strikes a slump it looks like it will be either Cruise, the St. Louis fence buster or Roush, the Cincinnati demon.

With 100 guesses at the leading batsmen it is unlikely that a re-

Batteries—Shawkey and Nunnaker, Plank, Martin and Bevereld

GAMES TODAY
St. Louis at Washington
Detroit at New York
Cleveland at Boston.

cognized critic would have picked either one of the two when the season started.

Cruise was an unknown quantity. He had been with St. Louis a while in 1914 and had batted .227, whereupon he was sent back to the minors. The next year he batted .297 with St. Paul and last year .294 with the same club. Who would have picked him as a leading batter against National league pitching?

Roush was better known. Last year he batted .267 with Cincinnati and New York. The year before he hit .298 with the Newark Feds.

But there they are, way out in front fighting it out between themselves and only a terrific slump will keep one or the other out of the 1917 hall of fame.

One-Armed Athlete Leads Team in Batting; Plays Football and Sprints

A one-armed ballplayer leads all his colleagues in batting on a semi-pro team at South Windham, Me.

He is Charley Foley, an outfielder who lost his arm in a trolley accident 10 years ago.

He did not allow the accident to discourage him and kept on

playing ball, with the result that he has hit .428 this season. He has also accepted 26 chances without an error, stolen 13 bases and made four sacrifice hits.

Foley does not confine his athletic energies to baseball. He plays basketball and football and runs 100 yards close to 10 seconds.

They're planning an international wrestling meet in Chicago. The audience should have a good time unless somebody wakes him up.

The Outbursts of Everett True

By Condo

TO CLEAN YOUR HANDS

It is impossible to keep the hands clean when making repairs on the machine. A simple and economical way in which to cleanse them is as follows: Mix a small quantity of sawdust and lubricating oil together and rub thoroughly into the pores of the skin. The oil should then be removed by wiping the hands with a cloth which has been saturated with a little gasoline or kerosene. This should be followed by the ordinary wash with soap and water. It is poor practice to attempt to remove the dirt from the hands by bathing them in gasoline, as this will cause some of the matter to become deeply imbedded in the skin.

TO GIVE EXPLOSIVE CHARGE

Device Forces Gasoline In Form of Fine Spray Directly into the Intake Manifold.

The spray primer is a device which draws gasoline direct from the supply line running to the carburetor and forces it in the form of a fine spray directly into the intake manifold. The action is performed by a plunger pump fitted to the dash. It is only necessary to draw out the pump and push it in again, to give the motor a highly explosive charge.

WHEN SELF-STARTER FAILS

Motor May Be Started by Jacking Up Rear Wheel and Setting Gears at Direct Drive.

Where the starting crank is not handy and the self-starter fails to work, the motor may be started by jacking up one rear wheel, throwing off the brake, and setting the gears at direct drive. By turning the wheel the motor will be operated in same manner as when crank was used. Caution: Do not lower jack until clutch is neutral.

GETTING AT THE FACTS.

Independent.

"This cost of living frights me not," said Alfred Fuller Bitts.

"When nothing else is in the pot, I eat my fill of grief."

NEW MONSTER U-BOATS NOISELESS, SAYS SWISS

A Swiss newspaper correspondent, who recently visited Kiel, says the German submarines of the latest type are cruisers of 2,000 or more tons, with a radius of action of thousands of miles. At least four of these new "cruisers" have already been built, and several others will be completed this summer.

The "submersible" cruisers have several batteries of six-inch guns and three torpedo tubes. Their speed is said to be over 20 knots per hour on the surface and 12 knots submerged. Each one of the vessels has a crew of more than 100 men.

An important feature of the new monster submarines is that they have noiseless motors. After diving they move silently through the water and their presence cannot be detected by an enemy ship even with the finest instruments.

POOH-BAH JOINS THE ARMY

Sandberg Held Nearly Every Office in His Town, But War Wood Him.

Bangor, Me.—When Carl J. Sandberg of The Folks enlisted the other day with Company E of Skowhegan, which is now doing guard duty, he upset the entire officialdom of the town. He was principal of the high school, assistant postmaster, chairman of the board of selectmen, superintendent of schools, notary public, tax collector and game warden.

But patriotism overcame all these honors, and he walked out of all these official robes to help Uncle Sam in his scrap with the Kaiser.

The Folks is not a large place, having about 200 residents and a valuation of about \$300,000. It is largely a lumbering community and is fifty miles southeast of Skowhegan, in Somerset county. Sandberg was not the whole town, but as shown by the honors conferred upon him, he was a real somebody in the community.

TEST BRAKES BEFORE START

Necessary Precaution Previous to Working Car on Hill—Also Make Examination of Wheels.

Never take a car out on hill work without knowing the brakes. To test them properly the rear wheels should be jacked up and the brakes applied gently and then more firmly. At the same time the wheels should be tried to see if they turn freely or are held rigidly. If there is no time for above test speed up and stop the car several times, using foot-brake and emergency brake separately.

Where He Was.

"Did you say when your husband comes home very late at night he always brings you a novel?"

"No, I didn't. I said he always brought home a lot of fiction."

The Reason.

"Miss Parnes was dreadfully ill—she thought she was going to die."

"No danger. She'd be afraid if she died her ex-husband would be published in the papers."

Welcoming the Actor.

A well-known society performer volunteered to entertain a roomful of patients of a lunatic asylum, and made up a very successful little monologue show, entirely humorous. The audience in the main gave symptoms of being slightly bored, but one highly intelligent man saw the whole thing in proper light and, clapping the talented actor on the shoulder, said: "Glad you've come, old fellow. You and I will get along fine. The other dummies here are so dashed dignified. What I say is if a man is mad he needn't put on airs about it!"—London Opinion.

INSECTS TENACIOUS OF LIFE

Are Able to Survive Injuries Which Would Cause Death in Higher Forms of Animal Life.

The unusual success of insects in the struggle for existence has been a subject of much discussion in scientific circles. Just why it is that these little creatures have survived the ravages of birds and other enemies, as well as the ingenious contrivances of man for their destruction, and form today the most numerous class of animals on the face of the earth, leaves a wide field for argument and conjecture.

Two important reasons for this have been pointed out by naturalists, i. e., their proclivity and their extraordinary adaptation to environment. Another just as potent reason, which has received less attention, is their amazing tenacity to life, many species being able to survive injuries which would cause almost instantaneous death in the higher forms of animal life.

On the Screen.

We're told the movie 'Kiss is Sweet' That flickers through About ten feet.

Technical Humor.

"That was a rattling good poker Jimpen told, but you didn't even smile."

"That wasn't my fault entirely."

"Why not?"

"As I don't know one card from another, and can't play golf, I miss the point of a great many good stories that are going the rounds these days."

Sensitive Creatures.

"Some women have been married for years and don't know yet how to cook."

"That's true. And if anyone ventured to suggest that they spend a few hours daily in the kitchen, they would immediately retire to a private sanatorium and indulge in a complete collapse."

CITY LOTS RENTS FARM LANDS

FOUR CITIZENS OF IOWA HELD FOR TREASON

Lowden, Ia., Aug. 3. Four citizens of this community, three of them past 60 years of age, were arrested by federal officials yesterday charged with treason and resisting the government. Five or six others are being questioned, and more arrests may result. The action followed an outbreak that approached a riot between local citizens and pro-Germans last night.

FARGO APPEALS CASE IN WHICH CITY WORKER RECOVERED JUDGMENT

The city of Fargo today appealed to supreme court the damage suit in which Dan Moulton, driver of a garbage wagon, recently recovered a judgment for \$567.75 against the city for injuries sustained when a fire at the city dumping grounds blistered his face and injured his eyes. Moulton claimed that the burning of garbage at the city dump was not properly supervised, and that his injury was due to negligence on the part of the city.

CITY NEWS

Visiting Brother—Mrs. G. R. Nyers is a guest of her brother, Earl Nyers, at Tappen.

To Minnesota—Miss Margaret Wynkoop has gone to Minnetonka, Minn., for a vacation visit.

To Grand Forks—E. J. Taylor, former state superintendent of public instruction, is in Grand Forks county, where he is engaged in some special work.

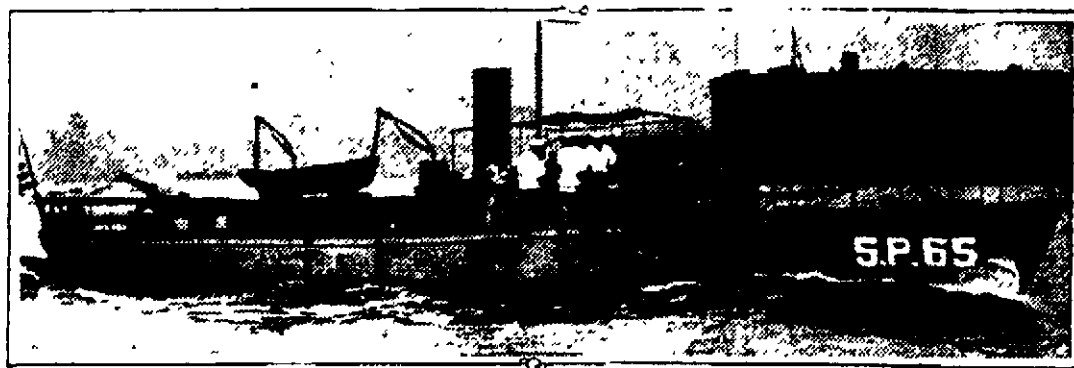

Takes New Position—Miss Pauline Hibbs, formerly of the Public Opinion's clerical staff, has procured a position as stenographer in the offices of the state railway commission.

Has Ripe Tomatoes—Ernest Warner, secretary to the state board of control, is proudly advertising the fact that he has picked his first perfect, ripe tomato from his garden last Wednesday.

Home from Trip—Mr. and Mrs. Phil J. Meyer are home from a several weeks' automobile tour to the Pacific coast. Aside from a number of punctures, the trip proved a highly enjoyable one.

On the Red Trail—Mrs. Fred E. Smith, Richard Blum and Felix Le-

"S. P." STANDS FOR SUBMARINE PATROL; HERE'S ONE

Once upon a time the letters "S. P." were known everywhere as standing for Southern Pacific. Not so in 1917. They stand for Submarine Patrol and your Uncle Sam is building hundreds of them to keep the kaiser's U-boats from cutting too many capers. Here's one of them, the "65," on duty along the Atlantic coast. These boats compare with what is known as the "standard type" as the dreadnaught compares with the battleship of a decade ago.

SAMMY IS BEST FED SOLDIER ON EARTH; READ CAMP MENU! Eats Meat as Often as You--And His Sweet Tooth Is Fed!

By MILTON BRONNER.

Washington, D. C., Aug. 3.—Uncle Sam admittedly supplies his armies with the finest rations in the world. He gives them not only more food, but also greater variety. Meat is the biggest and most costly portion, but care is taken that there shall be plenty of good bread or rolls, a variety of vegetables, hot drinks and some thing for the sweet tooth.

When the soldier does not get beef, he gets mutton or bacon or corned beef or fish. Beans, rice, onions and tomatoes are staple. Prunes, dried fruits and jam are also supplied. Fresh fruit is used when not too high.

Savory soups of various kinds are on the menu. Potatoes are served fried, mashed, baked, creamed or Lyonnaise. Beefsteak, roast beef, beef loaf and hamburger are supplied just as frequently as in your home.

Some of the items on the dessert list are plum pudding, rice pudding, plain cake, currant buns, apple rolls, lemon, peach, pumpkin and blackberry pies. According to the season, coffee, tea and cocoa are supplied.

For K. C. Fund—A collection was taken at the door of St. Mary's cathedral Sunday for the benefit of the Knights of Columbus million dollar war fund which is to be used in carrying on work similar to that of the army Y. M. C. A. The local committee in charge of Sunday's collection consisted of Harry Homan, Christian Lucas, Joseph Boehm, Frank Johnson and Joseph Clifford. Bismarck council, Knights of Columbus, already has assessed its members \$600 for this work, and it is anticipated that Bismarck's contribution will be at least \$1,000.

Frank's famous sausage of Milwaukee will be demonstrated at the K. C. company store Saturday. Don't forget to come in and have a sample.

many officers not only have to inspect and O. K. the menus, but they must see to it that each man gets the quantity of food Uncle Sam wants him to have to keep up his health and strength.

When the new national army of 500,000 men is distributed in the 16 cantonments, the quartermaster's department will be buying more food than any town of a half million consumes. In the army each man fares alike.

On any day when any of the following are on the menu for 500,000 "Sammys" these are the quantities in pounds that have to be purchased: Beef, 625,000; bacon, 375,000; corned beef, 500,000; canned fish, 500,000; dried fish, 435,000; pickled fish, 500,000; hard bread, 500,000; soft bread, 500,000; home, 75,000; rice, 50,000; hominy, 50,000; potatoes, 625,000; onions, 125,000; tomatoes, 125,000; prunes or dried fruits, 40,000; blackberry jam, 25,000; coffee, 35,000; tea, 10,000; sugar, 10,000; evaporated milk, 15,000; butter, 15,000.

There is no hit or miss system. Each mess sergeant for each company has to calculate exactly what weight of food he will need for each meal. The weight of each kind of food for each soldier is specified. The com-

pany officers not only have to inspect and O. K. the menus, but they must see to it that each man gets the quantity of food Uncle Sam wants him to have to keep up his health and strength.

POPULAR CARSON BOY DROWNS IN DEEP HOLE IN THE HEART RIVER

Untimely Death of Rudolph Peterson Has Cast Gloom Over Grant County Seat

The second drowning tragedy to occur at a point in the Heart river ten miles north of Carson where the Muddy creek empties into the Heart occurred when Rudolph, 21-year-old son of Mr. and Mrs. R. E. Peterson of Carson, was drowned while swimming. His father owned the original townsite of Carson. The body was recovered by friends about two hours after the tragedy occurred. The accident happened last one year lacking a day from the time that Oscar Jacobson, son of Mr. and Mrs. Jacob Jacobson of Sims, was drowned at the same identical place.

The deceased, with a party of other Carson people, went to the Heart river about 50 feet from where the accident happened, to hold a picnic. In the middle of the afternoon Rudolph in company with four or five other boys went swimming. The water hole in which the young man was swimming is said to be 12 feet deep. Rudolph was a good swimmer as well as the other young men in the party, but when diving he is believed to have come in contact with quicksand in the bottom of the river and was held until he was partially overcome. He called for help the first time he came up. He went down the second time and when he came up the third time he seized one of the men by one of his wrists making him also helpless in the deep water.

A third man was successful in getting the two strangling men separated, and Peterson went down the third time despite the heroic efforts to save his life. The other two men succeeded in getting out of the hole. Rudolph Peterson was one of the most popular young men in the locality and his untimely death is a shock to his parents.

The funeral of the young man took place at Carson from the Presbyterian church with Rev. E. Fenton of Brisbane officiating.

RECORDS DELIVERED BY AUTOMOBILE TO GRANT

On Wednesday H. Rovik and T. J. Kasper delivered to the county commissioners of Grant county the records transferred from the Morton county records to the new Grant county set of books, which is now a complete record of the business that the county required. The records consisted of three automobile-loads and were taken to Carson by T. J. Kasper, J. I. Rovik and Col. I. N. Steen. Attractor John Bowers and Edgar Newgard went to Carson with the party. In speaking of the delivery, Mr. Kasper stated that the records were for-

mally accepted by the Grant county commissioners when delivered to them Wednesday. The contract amounted to between \$19,000 and \$20,000. Mr. Kasper stated that the transcript contracts engaged as high as 30 transcript clerks at one time. The work of transcribing was commenced about Jan. 15 and was completed Aug. 1.

POPULAR YOUNG PEOPLE WED AT MANDAN MANSE

Two popular and well known young people of the vicinity were united in marriage by Rev. F. V. Thompson at the Presbyterian manse Wednesday afternoon, when Clarence Shepherd, son of Emory Shepherd, a well known farmer who resides just beyond the city limits, and Miss Anna Muncovsky, daughter of James Muncovsky, well known farmer of the Strain locality, were wed.

The couple were attended by James Muncovsky, Jr., brother of the bride and Miss Ruth Shepherd, sister of the groom.

The young people will take up residence upon the farm of the groom a few miles south of Mandan.

E. R. Tearfin of St. Paul entered the hospital yesterday morning for a few days' treatment.

E. C. Canfield, assistant yardmaster, will leave Sunday for a several days' vacation in Minneapolis.

Mrs. Charles Lohrath of Mandan entered the Mandan hospital yesterday for a few days' treatment.

A. E. Thorberg returned home Wednesday night from Fargo, where he has been serving on the federal grand jury for a number of days.

Mrs. John F. Sullivan and son John returned home Wednesday night from a several days' pleasure trip to the Shakoopa lakes, Minn. Mrs. Sullivan accompanied to Jamestown in company with friends from the lakes and returned via train from that point.

L. C. Pope, manager of the Northern Pacific telegraph office here, has returned from his former home in Williamsport, Ind., where he enjoyed an extended visit with relatives and friends. Mr. Pope expects to resume his duties at the telegraph office the first of the week.

Cashier and Mrs. Frank Herder returned Thursday from Jordan, Minn., where they had been enjoying a few weeks' honeymoon. Mr. and Mrs. Herder have rented the J. M. Messer cottage recently vacated by Mr. and Mrs. Amott and will in a few days move into their new home to start housekeeping.

GRIFFIN'S WRIST INJURED

County Surveyor Griffin sustained a badly wrenched wrist Wednesday morning when endeavoring to crank his Ford. Several of the tendons were strained, but fortunately no bones were broken. His injuries do not confine him to his home, but he carries the affected member in a sling and is handicapped in performing his regular duties.

PROVIDENT LIFE AGENTS IN BISMARCK FOR FIRST ANNUAL FRATERNALIZING

District and local agents of the Provident Life of Bismarck are gathering in the city today for their first annual convention and get-together session. At noon 40 agents had registered, and they were still coming. Business sessions will be held in the Commercial club rooms beginning this afternoon, after which the visitors will enjoy an auto spin to the penitentiary and Fort Lincoln, followed this evening with a chicken dinner at the Country club and a theater party at the Auditorium. A number of prominent speakers are on the set program for tomorrow.

STATE HOUSE NOTES

HOME FOR AGED.—The association of the Grand Forks Home for the Aged, a non-profit-sharing organization, was incorporated this week by David Sove, K. A. Hottel and J. M. Persenius.

NEW LIGHT CO.—The Aaby Light & Power Co., of New England was incorporated this morning by C. H. Aaby, J. J. Murphy and W. L. Gardner, all of New England, for \$25,000.

TO ROCHESTER.—Joseph Empting, superintendent of the Capitol street railway construction crew, who has been off duty because of illness for some time, has gone to Rochester, Minn., to consult the Mayo Bros.

HAD RIFE TOMATOES.—William Lohr, custodian of the Capitol, is willing to grant others the Bismarck potato championship, but asserts that when it comes to early ripe tomatoes he claims the belt, having enjoyed his first "moss" July 26.

GETTING IN REPORTS.—Biennial reports of the various educational institutions together with the inventories are reaching the office of the state board of regents and will be considered at the next meeting of the board.

NEW CREAMERY CO.—Articles of incorporation were filed with the secretary of state today by the Tower City Creamery Co. of Tower City, capitalized at \$5,000, and among whose nine directors are Joe Algee, C. E. Blain and G. S. Rich, all of Tower City.

TO DO SOME SWEARING.—Inasmuch as considerable swearing of one kind or another will be done by the county exemption boards next week, the governor this morning received from Washington authority to delegate one or all the members of these local boards official swearers for the purpose of taking oaths to affidavits.

MANY APPLICATIONS.—Applications for warehouse licenses are being received by the state railway commission at the rate of fifty a day. As each application must be accompanied by the new form of storage ticket, and as each form needs be carefully checked up for possible errors, the annual task of granting warehouse licenses is much complicated.

GREAT ROAD MEETING.—A real good roads booster meeting is reported at Stump Lake in Nelson county on Sunday by J. E. Kaulfuss of the state engineers' staff, who addressed there an assemblage of 2400 people gathered under the auspices of the Nelson County Automobile club, a thriving organization of 600 members. Mr. Kaulfuss told his hearers what other states are doing in the building of better highways and what North Dakota hopes to do, and he returned much enthused with the interest which the Nelson county people displayed.

FOUND CRIPS GOOD.—To Charles Brewer, secretary of the state board of regents, who has returned from a few days' visit in Fargo, reports that harvesting is in progress in the Red river valley, and that as far west as Eckelson crops are looking very good. Between Jamestown and Bismarck, along the line of the Northern Pacific, conditions from the train do not appear so favorable. Mr. Brewer does not believe the recent heat damaged crops in the valley to any extent. Wheat, oats, barley and rye were for the most part the danger stage, and Mr. Brewer saw many fields of wheat which he predicts will run 25 bushels to the acre.
